**DETAILED ACTION**

Acknowledgment is made of the amendment filed on June 1, 2008. Claims 8, 9, 33, 34, 47-53, and 57-60 are currently pending.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 8, 9, 33, 34, 48-53, and 57-60 are rejected under 35 U.S.C. 102(e) as being anticipated by Shafer et al. (US 7,165,722) (hereinafter referred to as ‘Shafer’).

Shafer teaches

a method of facilitating a communication using a product item, the product item including a surface having disposed thereon or therein coded data, the method including the steps of:

receiving sensing data from a user device, the sensing data resulting from sending the coded data (data of ID tag 10);

determining that the sensing data is indicative of a communication request associated with a provider ;

providing to the user device a provider address associated with the provider;

receiving from the user device a message and a destination address sent to the provider address; and  
forwarding the message to the destination address (col. 5, lines 25-52).

***Response to Arguments***

3. Applicant's arguments with respect to claims 8, 9, 33, 34, 48-53, and 57-60 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).  
Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
